SUMMARY

Software Engineer with strong Computer Science fundamentals and hands-on experience building performant, reactive web applications using **React, TypeScript, Next.js, and Node.js**. Experienced in translating complex design specifications into responsive user interfaces, developing robust RESTful APIs, and building intuitive dashboards for real-time tracking and data visualization.

EDUCATION

Dr. DY Patil Arts, Commerce and Science College <i>Bachelor of Computer Applications (BCA)</i>	Pune, Maharashtra <i>Jul 2023 – May 2026</i>
--	---

EXPERIENCE

Associate Trainee <i>LTIMindtree</i>	June 2026 – Present <i>Chennai, Tamil Nadu, India</i>
- Undergoing corporate training in SQL, Linux administration, and AutoSys workload automation. - Acquiring practical knowledge of enterprise production support, system monitoring, and ITIL incident management frameworks.	
Web Development Intern <i>Alaska App Studios, Pvt. Ltd.</i>	February 2025 – May 2025 <i>Remote</i>
- Built and optimized user-facing features for web applications utilizing React.js and Tailwind CSS. - Integrated secure REST APIs and improved client-side state management for seamless user interactions.	

PROJECTS

Tiffinz – Tiffin Service Management Platform (PWA) 🎧 <i>Next.js, MongoDB</i>	May 2025 – Dec 2025
- Engineered a full-stack Progressive Web App featuring a role-based admin dashboard for real-time tracking, transaction history, and wallet management. - Implemented efficient client-side state management and caching using TanStack Query to handle real-time data flow smoothly. - Developed robust backend APIs and secure database models ensuring transactional consistency for user operations.	
Krishi Sahayak – AI Advisory Platform 🎧 <i>React.js, Node.js, LangChain, Qdrant</i>	Jan 2026 – Mar 2026
- Designed and built an interactive AI-powered web platform featuring dynamic query ingestion and responsive data presentation. - Integrated Retrieval-Augmented Generation (RAG) pipelines and vector search workflows for context-aware, real-time responses. - Structured scalable backend services and clean REST endpoints to support asynchronous processing and complex client-side applications.	

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS, TanStack React Query, Responsive UI Design
Backend: Node.js, Express.js, RESTful APIs, C, Python (Basic)
Databases & Tools: MongoDB, PostgreSQL, Git, GitHub, Docker, Postman, Vercel
Core Competencies: Data Structures & Algorithms, Object-Oriented Programming, Performance Optimization, Agile Workflows
